

### **MPQ2000**

# **Portable Power Quality Analyzer**

- IEC61000-4-30 Class A compliance
- Powered off of phase A voltage ac/dc
- 1000 Vac and 1000 Vdc range
- Real time scope and DVM
- Connection verification
- On-board data analysis

#### **DESCRIPTION**

The Megger MPQ2000 Power Quality Analyzer is a highly intuitive, advanced portable 3-phase analyzer, delivering unmatched capability, in a rugged IP54 weatherproof enclosure. View RMS data, waveforms, demand data, phase angles, harmonics, unbalance, flicker and more in real time with the MPQ2000 scope mode and DVM mode. When data needs to be recorded, the MPQ2000 record verification automatically identifies the current clamps, recognizes their range and verifies the unit is connected properly. Simply connect it and push the record button.

The MPQ2000 can record for extended periods of time because of its massive memory. It utilizes an SD card which makes expanding the memory as easy as installing a new SD card. The recorded data can be viewed on the unit's color VGA display. The data can be transferred to the high-power Megger PQ Power Quality Analysis software via USB cable, USB stick, Ethernet, or directly from the SD card.

The free software, which requires no license, optimizes the MPQ2000 to locate the power quality phenomenon such as lighting issues, computer problems, tripping breakers, and much more. It offers advanced charting, advanced waveform and advanced harmonic analysis.

■ Total harmonic distortion

■ Total demand distortion

#### **MEASURED PARAMETERS**

- RMS voltage / current
- DC voltage
- DC current (requires DC CT)
- Phase-to-phase voltage
- Power parameters (KW, KVAR, KVA, DPF, TPF)
- Voltage sags/dips and swells
- Phase angles
- Current sags/dips and swells
- Transient down to 1 μsec
- IEC unbalance and ANSII unbalance
- Frequency

# **FEATURES AND BENEFITS**■ Powering off phase A makes th

- Powering off phase A makes the unit versatile, allowing its use in any location.
- IP54 weatherproof enclosure is designed for outdoor operation. The unit is robust enough to remain recording outdoors.
- Automated configuration in the Megger PQ software for quick and easy setup.
- Easy intuitive menus allow for simple navigation and operation.
- Record verification ensures the unit is configured correctly and you get the data you need — no wasted recordings.
- Automatic CT recognition means never having the unit programmed for a wrong range.
- CTs are powered by the unit so there's no need for additional connections or batteries.
- Full-featured Class A compliant (all parameters).
- On-board data analysis saves time by allowing an immediate examination of the data while still in the field.
- The expanded 1000 Vac range allows for more applications; no need for a second unit.
- 1000 DC measurement allows testing and analysis of renewable applications dismissing the need for additional equipment.
- Phase angle stability measurement lets you easily find tricky phasing problems caused by multiple erratic sources.
- CAT IV at 600 V ensures a safe unit for all applications.
- Multiple communication methods (USB, Ethernet, USB stick or SD card) allow flexible and convenient operation
- Removable SD card allows for large recording capabilities and simple memory expansion.
- Included PC software: data analysis, configuration wizard, analyze waveforms through 128th order.

#### APPLICATIONS

Using experience gained from supplying a multitude of analyzers to a large number of utilities, industries and service providers, Megger has designed the most versatile unit available today. Some of the applications include the following:

- Compliance testing to any PQ standard
- Power factor studies
- Load studies and load balancing
- Billing verification
- Substation monitoring
- Capacitor bank sizing
- Transformer analysis and de-rating
- Motor troubleshooting and inrush testing
- Switchgear and component failure
- Tripping breakers
- Equipment tripping offline
- Dimming/surging lighting
- Lamp flicker analysis
- Neutral overheating

#### **SPECIFICATIONS**

#### **Input Power**

Phase A 90-600V 50Hz/60Hz or 105-600V DC

10

Aux Input Power - 120/240 V, 50/60 Hz

Water-tight cord to operate off standard US, UK and EU plugs Supports live connect/disconnect

#### Battery

NiMH battery pack (field replaceable)

Discharge time – 8 hours Recharge time – 3 hours

### Data storage

External SD card (up to 32 GB)

#### Communication

Ethernet communications: network communications.

Wireless communications with off-the-shelf bridge.

USB stick - transfer data file to USB. Transfer setup configurations to and from USB stick. Perform firmware upgrades using USB stick. SD card: automatically writes data to SD card; no manual transfer required. Transfer setup configurations to and from SD card. No tool needed to access the SD card.

#### **Environmental**

Operating: -20° C to 50° C (-4° F to 122° F)
Storage: -30° C to 60° C (-22° F to +140° F)
Relative humidity: 0-95% non-condensing
Altitude <2000 m: 1000V CAT III / 600 V CAT IV
Altitude 2000 m - 4000 m: 600 V CAT III / 300 V CAT IV
Altitude 4000 m - 5000 m: 300 V CAT III / 150 V CAT IV

#### Case

Ruggedized enclosure IP54 when closed Lockable by means of padlock

#### Display

Backlit 11.5 cm x 8.5cm color VGA

#### **PQ Events**

Dips / sags: Triggers off of voltage and current. IEC61000-4-30 compliant.

Swells: Triggers off of voltage and current. IEC61000-4-30 Compliant Sub-cycle distortions: Triggers off of voltage and current. IEC61000-4-30 compliant.

Transient detection: 1  $\mu$ second. Triggers off of first 3 voltage channels. IEC61000-4-30 compliant.

THD: Triggers off of voltage and current. IEC61000-4-30 Compliant Rapid Voltage Change (RVC): Triggers off of first 3 voltage channels. IEC61000-4-30 compliant.

Phase shifts: Trigger event when a phase shift occurs between the voltage channels. Record date and time, duration and waveforms of all enabled channels. Phase shift user selectable down to 1 degree. Waveform capture of events: Capture waveforms on all enabled channels when an out of limits event occurs. Waveforms programmable with up to 9 pre-trigger cycles and 99 post-trigger cycles.

Timed waveform capture: Captures waveforms periodically on all enabled channels. Waveform capture interval programmable down to 1 cycle. Programmable number of cycles to be captured up to 99 cycles.

Event triggered waveforms and timed triggered waveforms simultaneously.

Mains signaling events: Two selectable frequencies and amplitudes. Selectable time interval. Measured per IEC61000-4-30.

Captures waveforms on all enabled channels when a mains signaling event occurs. Waveform programmable with up to 9 pre-trigger cycles and 99 post-trigger cycles.

Event Flagging: Measured per IEC61000-4-30.

#### **Motor Inrush**

Records RMS, Power and PF at a 1 cycle resolution. Capture inrush current during motor start up. Support both three-phase and single-phase motors.

#### **Real Time Data**

Scope Mode: View waveforms in scope mode

Freeze, zoom and pan View Vector scope View ANSI unbalance View IEC unbalance View harmonic in real time View inter-harmonics in real time

Frequency: Per IEC61000-4-30
Flicker: Per IEC61000-4-15

**Functions** 

Auto identify CT and CT range setting

Configuration verification - Display if unit is connected incorrectly.

On board analysis - Perform data analysis on unit. Compare recorded

values against customizable templates.

Waveform analysis through the 128th order.

Clock hour orientation - Time sync recording to nearest interval.

Scheduled run - Select start and stop time of recording. Instrument

then automatically begins recording.

On board configuration - Ability to configure recording parameters from front panel of instrument.

Auto Setup - Ability to have instrument automatically configure itself.

On board naming of data and setup files -Ability to name data and

setup files from the front panel of the instrument.

Supported languages: English, Spanish, French, German & Czech

On Board Instrument Preference Settings:

Selectable Traces Colors Selectable Short Cut Buttons Selectable Time Out Period Chart Grid ON / OFF

#### Software

Windows compliant (XP, Win 7, 8, 10) See MPQ Analysis Software datasheet for details

#### **OPTIONAL ACCESSORIES**

#### Power Quality Simulator (MPQ-SIM-01)

An ideal training tool. Creates a three-phase source, 50/60 Hz and loads off of single-phase dc adapter.

- Create dips and swells on voltage and current channels
- Create transients
- Create phase shifts between voltage channels
- Create phase shifts between voltage channels and current channels
- Create harmonics
- Create flicker
- Create power reversals

#### **OPTIONAL ACCESSORIES CONTINUED**

CP-600DC-ID 600 A split core AC/DC current clamp

#### **MCCV Rain Tight Flexible Current Clamps**

These flexible rain tight CTs have four current ranges that are all self-identifying.

The current clamps are powered from the MPQ2000 Analyzer and come in three different diameters (18 cm, 27 cm and 37 cm).

Ranges includes 60 A, 600 A, 3000 A and 6000 A.

#### C/N 2007-216 Voltage Lead Set

Kit of 4 differential voltage leads.

Includes 4 voltage leads, 3 jumper leads and 1 ground lead.

Range = 0 to  $1000 \, \text{Vac} / \, \text{Vdc}$ .

Voltage leads come with a kit of multi-color clip on bands. Configure the voltage leads to match the color code configuration.

CAT IV @ 600 V.

#### C/N 1008-645 Voltage Lead Fuse Adapters

Optional fuse adapter kit. This adapter connects to the MPQ2000 standard leads.

Includes 4 adapters with multiple color straps.

Fuses come with a kit of multi-color clip on bands. Configure the fuse adapters to match the color code of your voltage lead.

#### **ACCESSORY KITS**

### MPQ2000 Basic Kit C/N MPQ2000-BASIC

Includes MPQ2000 analyzer, voltage leads, SD card, USB cable, ethernet cable, universal power cords, soft-sided carry bag plus fused adapters. Does **not** include current clamps.

### MPQ2000 Silver Kit C/N MPQ2000-S-KIT

Includes MPQ2000 analyzer, voltage leads, SD card, USB cable, ethernet cable, universal power cords, soft-sided carry bag, plus fused adapters and 3 MCCV6000-18 (four range flex 18 cm ID) CTs

# MPQ2000 Silver Plus Kit C/N MPQ2000-S-KIT-PLUS

Includes MPQ2000 analyzer, voltage leads, SD card, USB cable, ethernet cable, universal power cords, soft-sided carry bag, plus fused adapters and 4 MCCV6000-18 (four range flex 18 cm ID) CTs

#### MPQ2000 Gold Kit C/N MPQ2000-G-KIT

Includes MPQ2000 analyzer, voltage leads, SD card, USB cable, ethernet cable, universal power cords, soft-sided carry bag, plus fused adapters and 3 MCCV6000-27 (four range flex 27 cm ID) CTs

# MPQ2000 Gold Plus Kit C/N MPQ2000-G-KIT-PLUS

Includes MPQ2000 analyzer, voltage leads, SD card, USB cable, ethernet cable, universal power cords, soft-sided carry bag, plus fused adapters and 4 MCCV6000-27 (four range flex 27 cm ID) CTs

# MPQ2000 Platinum Kit C/N MPQ2000-P-KIT

Includes MPQ2000 analyzer, voltage leads, SD card, USB cable, ethernet cable, universal power cords, soft-sided carry bag, plus fused adapters and 3 MCCV6000-37 (four range flex 37 cm ID) CTs

# MPQ2000 Platinum Plus Kit C/N MPQ2000-P-KIT-PLUS

Includes MPQ2000 analyzer, voltage leads, SD card, USB cable, ethernet cable, universal power cords, soft-sided carry bag, plus fused adapters and 4 MCCV6000-37 (four range flex 37 cm ID) CTs

#### **SPLIT CORE CURRENT CLAMP KITS**

# Kit of 4 split core self ID 1000A PQ CT C/N CP-1000WCE-ID-KIT

Split core current clamp for the MPQ and PA9 series. Self-identifying on MPQ. Supports 1000A range. 6 in. (1.82 m) cord.

# Kit of 4 split core self ID 100A PQ CT C/N CP-100CE-ID-KIT

Split core current clamp for the MPQ and PA9 series. Self-identifying on MPQ. Supports 100A range. 6 in. (1.82 m) cord.

### Kit of 4 split core self ID 20A PQ CT C/N CP-20CE-ID-KIT

Split core current clamp for the MPQ and PA9 series. Self-identifying on MPQ. Supports 20A range. 6 in. (1.82 m) cord.

### Kit of 4 split core self ID 5A PQ CT C/N CP-5CE-ID-KIT

Split core current clamp for the MPQ and PA9 series. Self-identifying on MPQ. Supports 5A range. 6 in. (1.82 m) cord.

### Kit of 3 split core self ID 600A (AC/DC) PQ CT C/N CP-600DC-ID-KIT

Hall effect current clamp for the MPQ and PA9 series. Self-identifying on MPQ. Supports 600A dc and 400A ac range. 6 in. (1.82 m) cord.
